**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel J. Stanger on 9/1/04.

In the claims:

In line 20 of claim 25, delete "." and insert, --;--;

after line 20 of claim 25, insert --wherein said mounting step is performed such that a length of a shorter side of a main surface of said semiconductor chip formed in a quadrilateral shape is twice or less than twice a distance from a tip of the inner leads arranged at the farthest location from a center line of the semiconductor chip in a plane direction, to said semiconductor chip.—

cancel claim 28.

In line 20 of claim 26, delete "." and insert, --;--;

after line 20 of claim 26, insert --wherein said mounting step is performed such that a length of a shorter side of a main surface of said semiconductor chip formed in a quadrilateral shape is twice or less than twice a distance from a tip of the inner leads arranged at the farthest location from a center line of the semiconductor chip in a plane direction, to said semiconductor chip.—

### **REASONS FOR ALLOWANCE**

Claims 25-27 and 29-30 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to disclose the combination of the process steps of forming a semiconductor device recited in the base claims 25 and 26, including the combination of the process steps comprising: said mounting step is performed such that a length of a shorter side of a main surface of said semiconductor chip formed in a quadrilateral shape is twice or less than twice a distance from a tip of the inner leads arranged at the farthest location from a center line of the semiconductor chip in a plane direction, to said semiconductor chip.

Therefore, the amended limitation together with the overall structure of the method of manufacturing a resin sealing type semiconductor device is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
